

NEW PRESTIGIOUS ORDER FROM THE MIDDLE EAST

Damac Towers and Paramount Pictures choose Automatic Waste System by Oppent for the automated handling of waste into their 4 new skyscrapers

Milan - August 10th, 2015 – Oppent has been awarded a new order of 1 million euros, for the realization of an Automatic Waste System into the 4 Damac Towers by Paramount Hotels & Resorts in Dubai.

The Real Estate Company Damac Properties is building 4 skyscrapers by Paramount Pictures set in Burj, the most exclusive district of Dubai. The historical movie factory found the ideal set for the realization of its first prestigious residential complex in the center of a green area of more than 2 square kilometers, better known due to Burj Khalifa, the tallest skyscraper of the world.

The buildings are 250 meters tall each one, they will house 1,200 luxury apartments in Hollywood style and several high level facilities such as the first Hotel and the first Residence Centre of the American brand. The works for the construction of the towers are currently ongoing and they will be completed within 2016.

The award came on last July, when Paramount Pictures and Damac Properties chose Oppent's Automatic Waste System for the automated waste collection into the skyscrapers. The order has a value of 1 million euros and it includes the installation of 164 loading doors for the waste disposal connected to a reserved pipeline. The waste bags will be moved through the tubes to the central collection point, thanks to the underground pneumatic transport method.

Automatic Waste System is an example of technology and sustainability and it will guarantee the best comfort in waste disposal operations to the 2,000 inhabitants of the towers. The system assures hygiene, efficiency in waste collection, low energy consumption and low noise emissions, perfectly integrating with the environment and improving the image of the district.

With this order, it rises up to six the number of awards in Middle East during the last 8 months, for a total amount of more than 5 million euros. Damac Towers is the first prestigious reference achieved in the Real Estate market of the Middle East. In the Healthcare market, Oppent counts already five orders: the Farwaniya Hospital in Kuwait City, two Integrated Health Centre and Worker's Hospital in Doha and Mesaieed, Qatar, the Emirates Hospital of Dubai, the Imperial College London Diabetes Centre of Abu Dhabi, United Arab Emirates.
